CFT251B_2D00_TX_TMHP_277CA_OUTBOUND

1. Purpose:

We receive TX TMHP 277CA files from Axway. This job group takes these files, renames them, and moves them to a hot folder.

2. General Info:

Priority	2
Process location	\\VA1OPS04\d$\ProdTransferFiles\TMHP\AMCRSP
Calendar	Monday - Friday
Scheduled Start Time	7:00AM - 11:50PM
SLA	No SLA
Internal Notifications - Initial	Call COPS SME on-call
Customer Notification - Secondary	N/A
Broadcast distribution list - Final	N/A

3. Pre-Requisites

1. Time Dependency: 7:00 AM - 11:50 PM
2. \\VA22PWVSMT300.CORP.AGP.ADS\ProdTransferFiles\TMHP\AMCRSP*.*@MGFT_STAGING_US Stable for 5 mins

4. Job Steps

Steps	Explanation	Dependency	Command	Procedure	Failure Instruction

CFT251B_0000_GET_277CA_FILE(1)	Gets the 277CA file from Axway staging folder. Completed Normally output example: `277CA_645997162.K933SITU.File1.277.x12`	7:00AM-11:50PM	cscript.exe	//Nologo AGPGetFileName.vbs \\<C_CLAIMS_AXWAY_STAGING_SERVER.11695>\<C_PayfWach_Download_Folder.63>\TMHP\AMCRSP\277CA LastWriteTimeASCName	Check output tab to see if last run of the job step has a file name present. 1. If file name is not present: a. Refer to override tab to get the variable for the file name that step is looking for <**V_File** b. If variable is <Main - Invalid number of parametersScript" this means the file was 2. If file name is present, check if the file name found is present in below folder: \\va22pwvaxy307.corp.agp.ads\ProdTransferFiles\TMHP\AMCRSP\ a. If file is present in folder, rerun the job step b. If file is not present in folder but was picked up in output tab, reach out to COPS SME.

CFT251B_0010_SUBSTRING_277CAFILE(1)	Removes **.x12** extension from file. Completed Normally output example: 645997162.K933SITU.File1.277 Completed at 11/01/2023 12:23 PM	7:00AM-11:50PM CFT251B_0000_GET_277CA_FILE1(1)=CompletedNormally	cscript.exe	//Nologo AGPSubString.vbs <V_Filename_TMHP_AMCRSP_277CA.3482> 728	1. Check \\VA22PWVSMT300.CORP.AGP.ADS\ProdTransferFiles\TMHP\AMCRSP for file name 2. If file still has **.x12** extension, rerun job step.
CFT251B_0020_RENAME_277CA_FILE(1)	Renames the file from step 10.	7:00AM-11:50PM CFT251B_0010_SUBSTRING_277CA_FILE(1)	cmd	/ren \\<C_CLAIMS_AXWAY_STAGING_SERVER.11695>\<C_PayfWach_Download_Folder.63>\TMHP\AMCRS	

				P*<V_Filename_TMHP_AMCRSP_277CA.3482>*<V_Filename_TMHP_AMCRSP_277CA.3482>	Scenario: Output shows "The syntax of the command is incorrect." 1. Check output of **`CFT251B_0000_GET_277CA_FILE`**. a. If the output is blank, rerun the job group from the top. b. If not blank, proceed to step 2. 2. Check if there is a file in this location: \\va22pwvaxy307.corp.agp.ads\ProdTransferFiles\TMHP\ a. If the file is present, check if the value of the variable '**`V_Filename_TMHP_AMCRSP_277`** **Note** • Correct naming convention of variable should be something like this: ○ This is extracted from the original file name without the portion x12 extension. • Incorrect naming convention: if this step failed, the file in the path will **`I872X5DM.File1.277.x12`** b. If the variable value is empty or has any value that does not look correct like in the box a **`ename_TMHP_AMCRSP_277CA`**' to the file name in the location: \\va22pwvaxy307.corp.a pull this shortened version of the file name from step 10 output, or simply create it yourse format in the note above. c. Then rerun the job step. If the file in the location folder listed in step 2 is already renamed in the proper convention a 1. Check if the value of the variable '**`V_Filename_TMHP_AMCRSP_277CA`**' has been updated to t 2. If the variable value is empty, submit a tidal ticket to update the value of the variable '**`V_Filena`** wvaxy307.corp.agp.ads\ProdTransferFiles\TMHP\AMCRSP\ and then set this job step to 'Comp Job or Jobgroup Names CLA251B_0020_RENAME_277CA_FILE (1) 45861408 Action Set Status Date of action 2021-05-26 Job run ID's Please follow the order given below: Step 1: Update the value of this variable V_Filename_TMHP_AMCRS Step 2: Set this job step to 'completed normally': CLA251B_0020_RE Additional Notes Please follow the order given below: Step 1: Update the value of this variable V_Filename_TMHP_AMCRS Step 2: Set this job step to 'completed normally': CLA251B_0020_RE
CFT251B_0030_MOVE_FILE_TO(1)	Moves renamed file from \\VA1OPS04\d$\ProdTransferFiles\TMHP\AMCRSP to \\VA1OPS04\d$\ProdTransferFiles\TMHP\AMCRSP\To	7:00AM-11:50PM	cmd	/cmove "\\<C_CLAIMS_AXWAY_STAGING_SE	

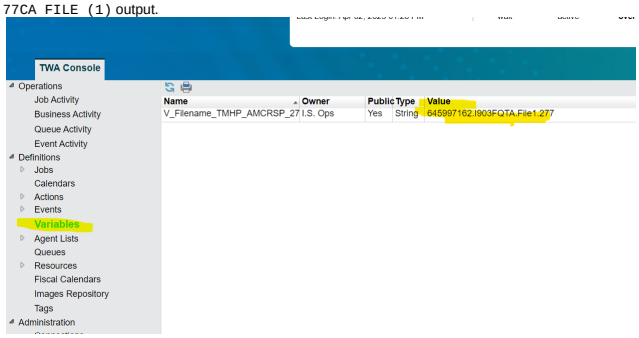
CFT251B_0020_RENAME_277CA_FILE(1)

RVER.11695>\C_PayfWach_Download_Folder.63>\TMHP\AMCRSP\<V_Filename_TMHP_AMCRSP_277CA.3482>" \\<C_CLAIMS_AXWAY_STAGING_SERVER.11695>\<C_PayfWach_Download_Folde

Check if there is a file in this location: \\va22pwvaxy307.corp.agp.ads\ProdTransferFiles\TMHP\AMCR

> The file name will have a convention like 645997162.I872X5DM.File1.277. Check the last r
> the file name.

If the file is present, check if the value of the variable '**`V_Filename_TMHP_AMCRSP_277CA`**' has been
`77CA FILE (1)` output.



1. If the variable value is empty:
   a. Submit a tidal ticket to update the value of the variable '**`V_Filename_TMHP_AMCRSP_2`**
   ads\ProdTransferFiles\TMHP\AMCRSP\
   b. Rerun the job step.
2. If the variable is already updated:
   a. Rerun the job step.
   b. If fails again, check CFT251B_0000_GET_277CA_FILE (1) and see if it found a file. If th
